PERSONAL PROFILE

Hello i'm UI/UX Designer with a trending view, high-quality and Professional approach and 2 years of deep experience working across UX/UI, creating UI for Websites and Web apps. My years of experience include Website design, landing pages, E-commerce Websites and online stores, Mobile versions of websites(responsive), Presentations, banners, Email Templates, Marketing materials, UI Kit, Wireframing and Prototyping, UI/UX for mobile (ios & Andriod) and Web apps, Logo design and Branding

I love working on UI/UX analysis of complicated systems, and tasks of complexity never frightened me. All images, fonts and layers will be organized and prepared for the font-end developer.

I have an up-to-date knowledge of Web-design industry including Adobe (photoshop, illustrator, XD), Figma, Marvel, Miro, Sketch, Invision App. I have all basic knowledge related to this ground, Like i am efficient in Html, CSS, Python, C++ and some other types of coding.

I am quite adapt to soft skills. What does design mean to you? I can bring your imaginations into existence. You only have one chance to make a first impression, let's make it an amazing one.
